ABOUT

Full Stack Developer with 3 years of experience specializing in Angular and .NET, designing and developing scalable web applications. Proficient in building dynamic, accessible, and responsive UIs using Angular and well-structured APIs following clean architecture principles in .NET. Knowledge in SQL Server for database management and experienced with Azure for code repositories, cloud services, and deployment.

EXPERIENCE

Freelance Developer

Jirka IT Solutions - Mar 2025 - Present

Responsible for developing responsive and reusable UI components using Angular to support client products. Involved in debugging and resolving issues across the frontend and parts of the backend to maintain system stability. Also handle integration and testing of APIs to ensure efficient communication between application layers.

Tech Stack, Architecture and Patterns: Angular, .NET, Git, Postman, Observer, MVC

Frontend Developer UI

Newshore - FLYR Labs - Nov 2022 - Feb 2025 (2 yr, 3 mos)

Responsible for delivering user-centric features by developing user stories based on client requirements. Builds reusable components and services in Angular, manages content and macros in Umbraco CMS, and implements backend logic in .NET using the MVC pattern. Writes unit tests with Jasmine, deploys pipelines in Azure, and maintains code quality through Git submodules. Recognized for strong performance and continuous learning, especially in Umbraco and accessibility.

Tech Stack, Architecture and Patterns: Angular, .NET, Umbraco CMS, SQL Server, Jasmine, Azure, Git, Scrum, Clean Architecture, Observer, Repository, MVC, A11y, Postman.

Software Developer

Poliedro Software - May 2022 - Oct 2022 (6 mos)

Responsible for developing user stories based on client requirements to deliver valuable product features. Builds UI components and API endpoints, while also handling bug fixes across both frontend and backend. Continuously improves skills in Angular and .NET through hands-on development.

Tech Stack, Architecture and Patterns: Angular, .NET, SQL Server, Hexagonal Architecture, Mediator, CQRS, Observer, Repository, MVC

EDUCATION

Systems Engineer

Universidad INCCA de Colombia - 2025 - 2026

This degree provides a solid foundation in computer science, information systems management, and process analysis, with a strong emphasis on software development and web technologies. It prepares professionals to design, implement, and optimize complex systems by integrating technical knowledge with analytical and problem-solving skills.

Software Developer

Certificate Program - Universidad del Norte - Apr 2021 - Dec 2021

Software Development Bootcamp Mision Tic 2022, sponsored by the National Government. Over 1000 hours of training, with an emphasis on web development.
